Create A New Project in a Different Language
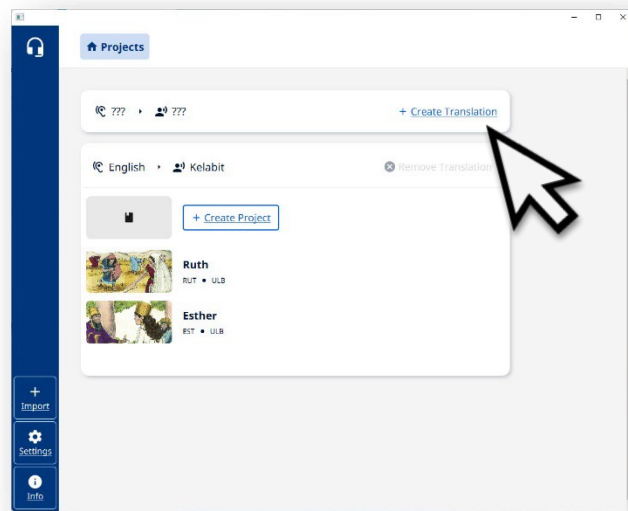

1

Open program.

Click on the Orature icon.

2

Create translation.
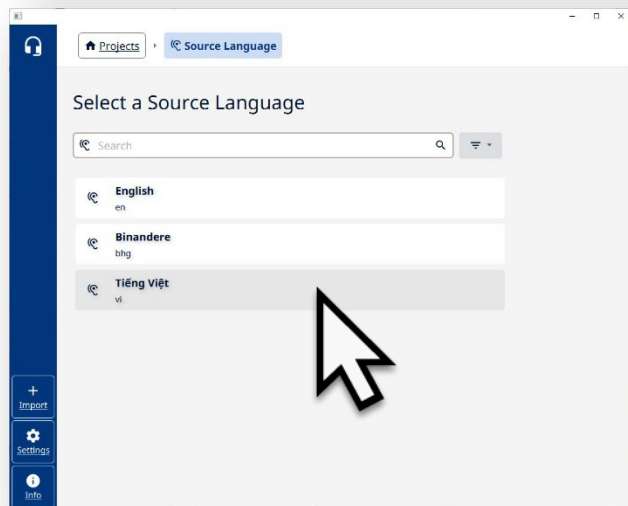

Click on Create Translation.

3

Select source.

Click on the desired bar to select the source language.
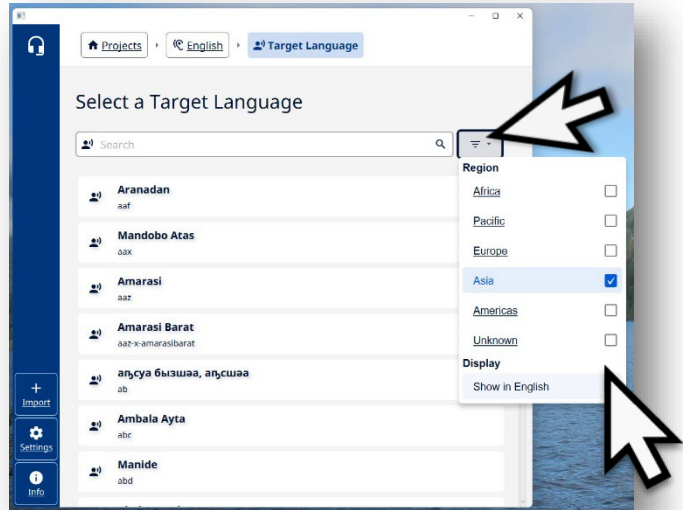

For other Source Languages, see the 'Import a Source Language' document.
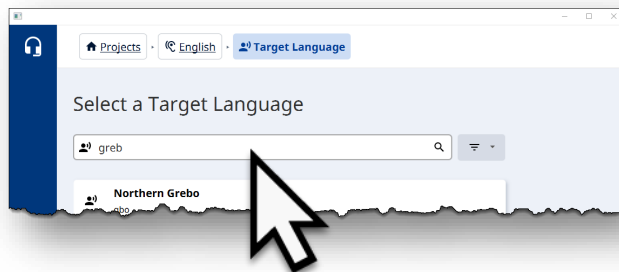

4

Filter for the region.

Click on the down arrow.

Click in the box to unselect all regions but yours.

5

Find target language.
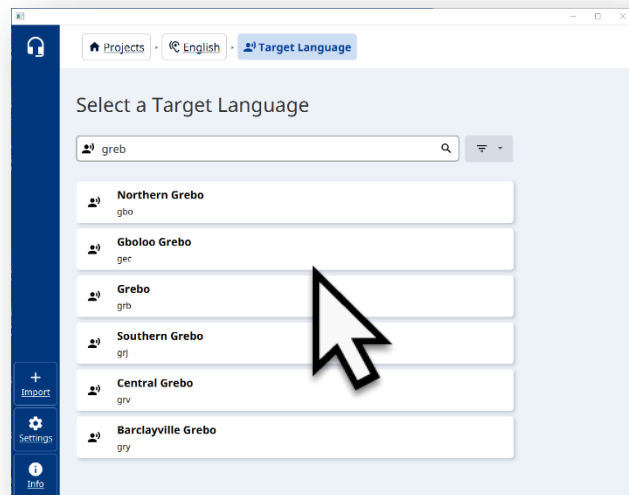

Scroll the list or type in the name of the target language.

6

Select target language.
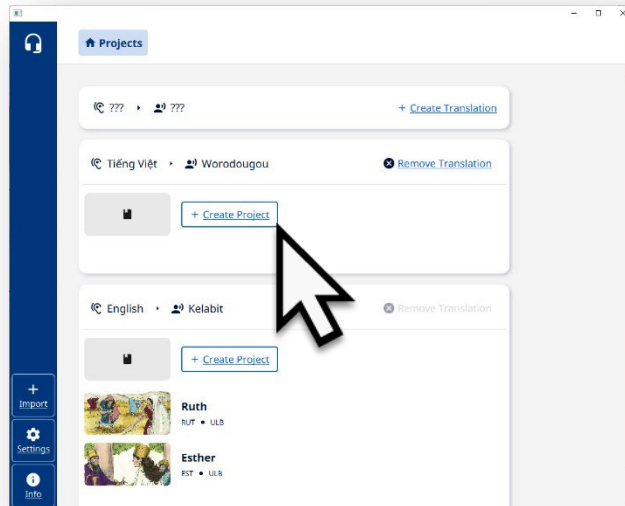

Click on language name bar.

Orature returns to the Project screen with the new Translation pair listed at the top.

7

Create project.

In the new translation pair card, click on + Create Project.

8

Select a book.

Click on the book name.

NOTE: The book bars that are greyed out already have projects created.

9

Project is created.

Orature 1.8 – Create a New Project in a Different Language
