The program installs.

11

Click Finish button.

The installation window closes.

There is an ocenaudio icon on the desktop.

**There is no need to open the program.**

Once the ocenaudio program is installed on the computer, it needs to be added to the helper applications listed in Orature Settings.

12
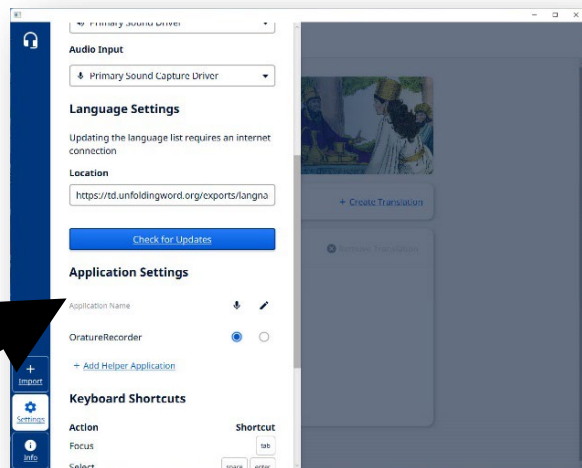

Click on Settings icon.

In the left blue bar, click on the gear icon to open the Settings menu.
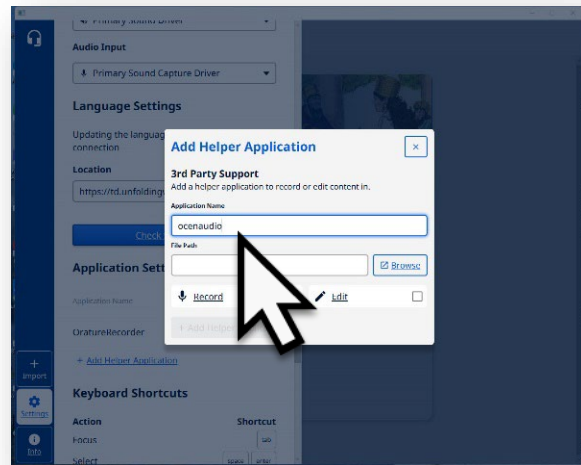

13

Scroll to Application Settings.

14

Click +Add Helper Application link.

Orature 1.8 – Edit Verse Project (no source audio)

15

Type 'ocenaudio' in the application name field.

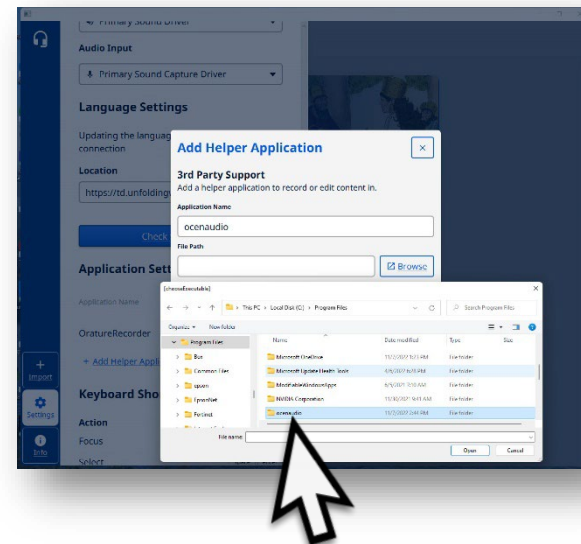

16

Click on Browse.

The Windows' File Explorer opens.

17

Navigate to the folder with the ocenaudio program file.

Most like the ocenaudio folder is in the Program Files folder.

18

Open the ocenaudio folder.

Click on the Open button to open the folder in the File Explorer window.

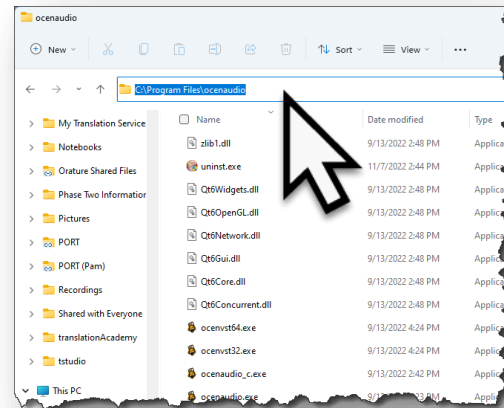

19

Copy the file path.

Click in the file path field. When the path is blue, press the Ctrl>C keys to copy the path.
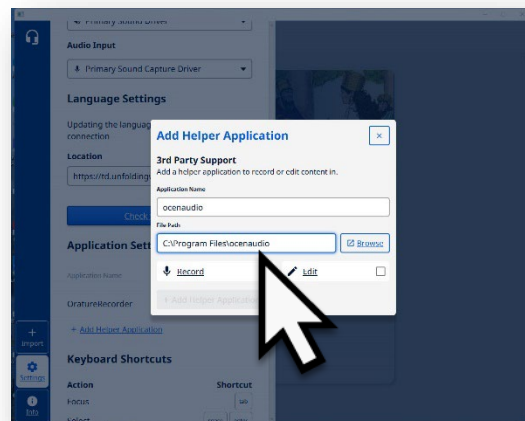

Return to the Orature program.

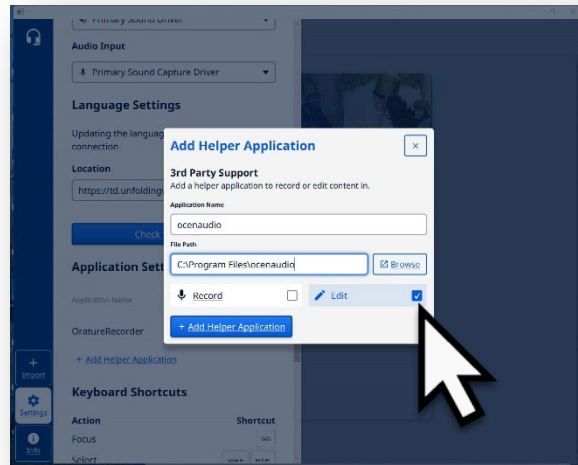

20

Enter the file path in the field.

Click in the File Path field. Press the Ctrl>P keys to paste the path into the field.
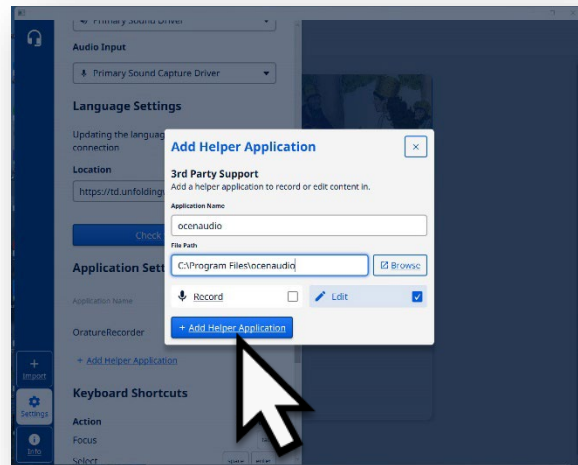

21

Choose Edit.

Click in the check box for Edit.

22

Choose Add Helper Application.

Click on the +Add Helper Application button to save changes.

Ocenaudio is added as an editing helper application in Orature.
